**RELEASE OF QR CODES FOR CONSOLIDATED AERIAL PHOTOS AND  
ELECTRICAL SYSTEM ASSESSMENT TOOL (ESAT)**

In our continued effort to improve school mapping, facility documentation, and institutional transparency, the Schools Division Office of Camarines Norte announces the official release of the following digital resources for all public school sites:

- **Consolidated Aerial Photography (Year 2026):** High-resolution bird's-eye views detailing school boundaries, building footprints, and infrastructure.
- **Electrical System Assessment Tool (ESAT):** A specialized tool designed to evaluate and document the current state of school electrical systems.

To facilitate easy access to these high-resolution visual records, a dedicated link has been generated via the QR provided. These materials are intended to assist in the verification of school boundaries, facility planning, and the preparation of School Improvement Plans.

Please be reminded that these materials are for official and institutional use only. Any unauthorized public posting or commercial distribution of these images is strictly prohibited to maintain the security and privacy of our school facilities.

For information, dissemination and appropriate action.
